Summary

Frontend-focused Software Development Engineer with 2.5+ years of experience building and revamping web and mobile applications using **React.js, Next.js, and React Native**. Experienced in developing responsive, high-performance user interfaces, improving application usability, and delivering features end-to-end. Hands-on experience collaborating with backend and catalog teams based on project requirements, contributing to Python-based catalog pipelines, SQL workflows, and GraphQL/REST API integrations. Demonstrated career growth through internal promotion from QA to SDE II, with a focus on building reliable, scalable, and maintainable applications.

Technical Skills

Frontend: React JS, Next.js, JavaScript, TypeScript, HTML, CSS, MUI
State, APIs & Real-time: Redux Toolkit, Apollo Client, GraphQL, REST APIs
Performance & Observability: Datadog, New Relic, Mixpanel
Mobile: React Native (iOS / Android)
Backend & Delivery: Node.js, PostgreSQL, Redis, AWS (S3, Amplify)
Data & Search: Python, SQL, Elasticsearch, k-NN vector search
Reliability & Testing: Site Reliability Engineering (SRE), monitoring, debugging, Apache JMeter, manual testing, performance testing

Experience

Software Development Engineer – II Sep 2025 – Sep 2026
Buncha Technologies India Pvt Ltd *India (Remote)*

- Developed and enhanced web application features using **React.js, Next.js, and TypeScript**, building reusable UI components and responsive interfaces for business workflows.
- Integrated **GraphQL and REST APIs** to support application workflows, data exchange, and frontend-backend communication.
- Collaborated hands-on with backend and catalog teams on **Python-based catalog pipelines** and **Elasticsearch k-NN vector search**, contributing to product data processing and search functionality.

Software Development Engineer – Trainee & I Mar 2024 – Sep 2025
Buncha Technologies India Pvt Ltd *India (Remote)*

- Developed and maintained web applications using **React.js, Next.js, and TypeScript**, implementing UI features, state management, and reusable components.
- Contributed to revamping 2 **React Native** applications for customers, shoppers, and drivers, improving UI consistency, usability, and maintainability across mobile workflows.
- Developed frontend features for a new **Next.js operations admin portal**, supporting administrative workflows and operational monitoring.
- Optimized **React Native application performance** by identifying rendering and loading bottlenecks, reducing screen load time by 10%
- Diagnosed and resolved **10-15 memory leaks and resource-management issues**, improving application stability during repeated navigation and extended usage.
- Optimized existing across 3 screens **image-caching mechanisms** to reduce redundant image fetching and improve image-loading behavior and scrolling responsiveness.
- Collaborated with backend and QA teams to integrate APIs, troubleshoot cross-platform issues, and deliver features across web and mobile applications.

QA Engineer Intern Sep 2023 – Mar 2024
Buncha Technologies India Pvt Ltd *India (Remote)*

- Performed **manual, API, and performance testing using Apache JMeter**, identifying functional defects and performance bottlenecks before release.
- Developed a code-based dispatch automation solution by translating Excel-based dispatch rules and real-time operational logic into executable code, achieving approximately **70–80% accuracy**.
- Demonstrated programming and problem-solving skills through dispatch automation, contributing to the transition from QA into software development.

Education

Bachelor of Technology Apr 2020 – Apr 2024
Andhra University College of Engineering *India*

- Electronics & Communication Engineering | Final CGPA: 8.74 / 10
